

Middle School Math Teacher 2021-2022 School Year

- Teach advanced and on-level math, including algebra, to 7th and 8th grade students.
- Use data, including STAR 360 math skills assessments, progress reports and identified areas of deficiencies, to provide instruction, guidance and support to students to bring their skills up to or beyond grade-level
- Interpret progress monitoring data to determine effectiveness of teaching techniques, methods and procedures to help math teachers modify instruction and improve student outcomes
- Track and report on the individual student check-in meetings that measure progress toward academic and social/emotional competencies
- Collaborate with Middle School staff to build camaraderie and share resources and ideas.
- With equity in mind, plan lessons, create assignments and assessments, and develop other classroom opportunities to provide an engaging learning experience for all students.
- Commit to helping all students, prior preparation or skill level, understanding and skill application, and ensure students will develop skills in math.
- Commit to creating classroom experiences that support our student body and celebrate that diversity.
- Demonstrate a dedication to learning about our Catholic mission, and then put into practice our Catholic mission, supporting students and colleagues in this endeavor.
- Commit to continuous improvement through a focus on lifelong learning and professional collaboration across the institution.
