An essential part of the Parish Consultations Process asks the faithful to assess parish life and ministry. To guide the Parish Consultations Committee and the Parish Pastoral Council in their evaluative process the Diocesan Steering Committee has put forth the following “Indicators of a Vital Parish.” These indicators strive to reflect a model of parish life that responds faithfully to both the nature of the Christian community presented in the New Testament, as well as to the particular needs of our Church today as set forth in the documents of Vatican II.

It is important to understand that these indicators are intended as a guideline to assist a parish in its self-evaluation. They are put forth as a point of departure in a parish’s effort to affirm its strengths and to determine which needs deserve further attention. These indicators are not intended to judge the capabilities of an individual or to criticize any group. Nor are they put forth as rigid standards to be considered apart from the many variables that determine the unique identity of any given parish.

The “Ideal” Christian Community

In determining the basic expectation of parish life (here categorized under the key topic of worship, community, service and education) and subsequent signs of its vitality, the indicators suggested below flow from an understanding of the ideal Christian community initially presented in The Acts of the Apostles:

“They devoted themselves to the teaching of the apostles and to the communal life, to the breaking of the bread and to the prayers. Awe came upon everyone, and many wonders and signs were done through the apostles. All who believed were together and had all things in common: they would sell their property and possessions and divide them among all according to each one’s need.” Acts 2:42-45

This image of Church is complemented by the Second Vatican Council’s exhortation to be responsive to the ever-present “signs of the times”:

“The sacred Council has set out to impart an ever-increasing vigor to the Christian life of the faithful; to adapt more closely to the needs of our age those institutions which are subject to change; to foster whatever can promote union among all who believe in Christ; to strengthen whatever can call all mankind into the Church’s fold.” The Constitutions of the Sacred Liturgy, #1

A parish faith community will always be so much more than what is listed below. These indicators simply serve as common reference points that allow analysis, planning, and creative renewal to begin.
